Request Details – FOI5857

Under the above act, please can you provide me with the information (about fly-tipping, skip permits and bulky waste collections) required to populate the attached spreadsheet for the periods 2009/10 and 2010/11?

Response Details – FOI5857

Further to your request for information regarding:

Fly-tipping, Skip Permits and Bulky Waste Collections

Please see the attached response:

Flytipping, Skip Permits & Residential Bulky Waste Collection

	Flytipping Flytipping															Skip Permits	Residential Bulky waste collection	
Period	Number of flytips				Amount spent clearing up flytipping (A = actual cost; E = estimated cost)								Enforcement, prosecution & sentencing			What is the current		
	Total number of flytip incidents ¹	Flytip incidents classified as 'Construction/ Demolition/ Excavation' waste ²	Flytip incidents classified as 'Other Household waste' ³	All other flytip incidents ⁴	Total spend on flytip clear-up o	Λ.	Single black bags, other single items, car boot load, small van load & transit van loads ⁵⁻⁹		Tipper lorry loads ¹⁰	A or E	Significant/ multiple loads ¹¹	A or E	Number of enforcement actions taken	Successful prosecution outcomes	Custodial sentences		Do you charge residents for the council's residential bulky waste collection service?	If yes, state charge structure
EXAMPLE	1,421	201	350	870	£ 150,421	E	£ 120,214	E	£ 20,100	Α	£ 10,107	Α	17	1	0	£ 45.00	Yes	£40 for up to 5 items
1 Apr-09 to 31 Mar 10 #	15,493	524	5,125	9,844	£ 724,889	E	£ 587,289	E	f 137,600	E	£ -	Е	28718	8	0	£0.00	Yes - information is published on BCC website, see http link in next cell.	.http://www.birmingham.gov.uk/bulkywaste.
1 Apr-10 to 31 Mar 11 #	14,452	532	5,187	8,733	£ 736,846	E	£ 539,596	E	f 197,250	E	£ -	Е	16042	5	0			

Note; The number of incidents and the estimated cost are taken from the 'Flycapture - National Fly-tipping Database' reports for 2009-10 and 2010-11.

Notes

- 1 Flytipping or litter? It should be counted as a flytip if the flytip waste is too large to be removed by a normal hand-sweeping barrow. In simple terms, a single full bin bag upwards would constitute a flytip. Similarly several carrier bags full of rubbis
- 2 Construction/Demolition/Excavation waste means waste from the construction, repair, maintenance and demolition of buildings and structures including roads. It means brick concrete, hardcore, soil, timber, plastics and occasionally hazardous waste.
- 3 Other Household Waste excludes household black bags, but includes house or shed clearances, old furniture, carpets and the waste from small scale DIY works.
- 4 All other incident types excluding (2) and (3) for more information on flytip classifications, please visit the Defra link below
- 5 Single Black Bag is a single bin bag containing waste. Cost of @removal/disposal will be entered for you based on national @average costs.
- 6 Other Single item means one piece of furniture or equipment. There may also be a few small items that would not on their own @constitute a fly-tip. Cost of removal/disposal will be entered for @you based on national average costs.
- 7 Car boot load or less means that the rubbish could be broken @down and squeezed into a large boot of a car. About 1 cubic @metre maximum. Up to 5 large bin bags. Cost of @removal/disposal will be entered for you based on national @average costs.
- 8 Small van load means bigger than the car boot load but that the @rubbish could be broken down and squeezed into an Astra size @van. About 4 cubic metres. Between 6 and 15 bin bags. Cost of removal/disposal will be entered for you based on national @averag
- 9 Transit vanload means bigger than the small van but that the @rubbish could be broken down and squeezed into a transit size @van. About 10 cubic metres. A large 3-piece suite of furniture @would fall into this category. Between 16 and 30 bin bags. Cost @o
- 10 Tipper lorry load means a single load from an 8-wheeled tipper @truck. You will need to enter your estimated or actual cost of @removal and disposal. The national average for 2006/07 was @£350 per load.
- 11 Significant/multiple loads means a multiplicity of the above. Eyou will need to enter your estimated or actual cost of removal Eand disposal. The national average figure for 2006/07 was £360 Eper load.
