#### Background

So far young people, schools and families are the ideal target group to promote the proposed educational action to prevent of and fight against violence, intolerance, in sport, that there are more and more frequently at major sporting events (not just during major events) but also at school level, amateur level and youth sectors.

#### Who

The project targets young people aged between 11 and 14 years.

Educational Lab for European Young Supporters - ELYS

Prevention of and fight against violence and intolerance in sport

### Project main aims

- 1. Prevent and fight against violence in sport through educational activities targeted to young students.
- 2. Promote a renewed "culture of sports" based on true sport values (respect, fair play).
- 3. Promote sport as a vehicle for personal social and cultural growth, social cohesion and inclusion.

# Main project activities

- a. Preparation of common guidelines and multilingual educational kits to carry out "Educational laboratories" in project partners territories.
- b. organization of local workshops and awareness raising campaigns with local schools sport organizations and other stakeholders.
- c. organization of Educational LABs consisting of 4 educational units, lessons on sport, non- formal education, creative working group, games and sport activities with young students, events and workshops with sport experts and testimonials.
- d. ELYS Transnational Open Days (ETO Days): meetings and events to share experiences, to transfer best practices and disseminate the project material and results.

## The main outcomes of the project

- 1. ELYS Manual and common guidelines for implementing Educational labs at local level.
- 2. 14 Educational LABs with participation of schools and sport organizations and more than 3000 youngsters involved in project activities.
