

Understanding Care Home Costs

About KPMG

KPMG in the UK is a leading provider of professional services including audit, tax and advisory. As part of KPMG Europe LLP we are part of the largest integrated accounting firm in Europe.

KPMG in the UK has over 10,000 partners and staff working in 22 offices and is part of a strong global network of member firms. Our vision is simple - to turn knowledge into value for the benefit of our clients, people and our capital markets.

Our innovative spirit inspires what we do and how we do it, providing valuable benefits for clients, employees and stakeholders. Constantly striving to be better lies at the heart of what makes us different.

Our Work in the Care Home Sector

KPMG provides audit, tax and advisory support for many residential care operators, including a number of operators in the Midlands area, giving us deep insight into the financial and operational realities of running such businesses.

We work with local authorities throughout the UK to improve service performance and value for money. Our work in residential care commissioning encompasses care of the elderly, children, and specialist care provision and includes working directly with care home businesses to understand and model their operating costs.

KPMG's mergers & acquisitions team has extensive transactional experience in the care homes sector. We regularly advise care home operators and local authorities on their strategic transaction options (e.g. divestment) for managing care home portfolios.

The KPMG Team

Our team specialise in working in the social care sector, and do understand the challenges faced by the sector, and also the political and regulatory context that care homes operate within.

We are using a mixture of industry experience, technical procurement skills, and accounting

expertise, which are all important to understanding current provider cost structures and the impact of future changes.

We have an expert data modelling team who have created the bespoke tool to capture and summarise the data collected from each home.

Our values

KPMG was the first major firm to introduce global values. Our values are a clear articulation of our shared identity; defining what we stand for and how we do things.

We lead by example

We work together

We respect the individual

We seek the facts and provide insight

We are open and honest in our communications

We are committed to our communities

Above all, we act with integrity
